INTRODUCING THE ECO RACER.

The challenge was to produce a premium leather alpine glove using only select raw materials that would minimize the impact on our environment. The ECO RACER is the end result. Using a combination of eco-friendly materials that come together and deliver on the fit, comfort and performance that is expected from Auclair. Soft and durable veg-tan leather as a base with biodegradable Primaloft recycled insulation, recycled polyester lining, hemp stitching, Ariaprene® eco-foam, and Yulex® plant based neoprene in the cuff. Leaving a positive hand-print with minimal footprint.
